

# Seasonal Balcony Garden Checklist — Jan to Dec

A visual, beginner-friendly checklist to help you plan planting, care, and harvest tasks for your balcony garden throughout the year. Tick tasks off monthly and use the notes column to track observations.

Month	Key Tasks	Notes	Done
January	■ Prepare soil, sow leafy greens, protect from wind		■
February	■ Start herbs, light feeding, monitor moisture		■
March	■■ Transplant seedlings, increase sun exposure		■
April	■ Plant warm-season crops, regular watering		■
May	■ Mulch pots, begin harvesting herbs		■
June	■■ Provide shade, daily moisture checks		■
July	■ Maintain plants, prune and inspect leaves		■
August	■ Monitor pests, plant fast greens		■
September	■■ Refresh soil, restart cool crops		■
October	■ Plant herbs and greens, steady watering		■
November	■ Reduce feeding, harvest leafy greens		■
December	■ Clean pots, plan next season		■

Tip: Write down sunlight changes, rainfall patterns, and plant performance in the notes column. These observations make next year's balcony garden even easier.
